1. a. Full Title  
Sleep-related symptoms among racial and ethnic subgroups. The Sleep Heart Health Study

b. Abbreviated Title (Length 26):
Sleep-related symptoms

2. Writing Group (list individual with lead responsibility first): George O’Connor, M.D., M.S.
Address: Boston Univ. School of Medicine, 80 E. Concord. St. (R304), Boston, MA 02118
Phone: (617) 638-4470  Fax: (617) 638-5298
Electronic Mail Address: goconnor@bupula.bu.edu

3. Timeline:  
Abstract submission 11/1/96 (Annual ATS Meeting)
Analysis and Paper by 5/97

4. Rationale: Sleep-related symptoms have been reported to differ between African-American and Caucasian adults. No studies have been reported using a single instrument to survey sleep-related

5. Main Hypothesis: Sleep-related symptoms differ between racial and ethnic groups even after adjusting for body-mass index.

6. Data (variables, time window, source, inclusions/exclusions):
All participants from all parent studies who completed the SHHS Sleep Habits Questionnaire will be included in analysis. Sleep-related symptom data will be derived, from this questionnaire. Parent-study data on race, height, and weight will also be required.
