Certification Requirements for Form 90

The certification requirements for the Form-90 AIR/ED (AED ver.B) are as follows:

Project Coordinators and Research Assistants are both required to be certified before they can conduct a Form-90 on the Main Trial. To be certified I request from each person two audio tapes, Form-90's and calendars, this information is to be sent to:

    Roberta Chavez, M.A.
    Manager, Program Evaluation Services
    UNM - COMBINE
    2650 Yale SE
    Albuquerque, New Mexico  87106

All ratings are on a 1 to 7 scale, 7 being the highest. All scores that are 5 and above are regarded as satisfactory. I e-mail the feedback to the PC. If the score(s) are below a 5 for one or both of the tapes, I notify the PC and request one more audio tape, Form-90, and calendars. If the score is 5 and above it is satisfactory and the person is certified on the Form-90 for the Main Trial.
