

ARIC MANUSCRIPT PROPOSAL FORM

Manuscript #003B

1. Title:

The Distribution of Carotid Distensibility in the ARIC Population

2. Objective:

This paper will describe the distribution of arterial distensibility in the ARIC cohort.

3. Lead:

W. Riley

4. Variables:

Race, age, gender, pulse pressure, EP, diameter change (strain), Young's elastic modulus

Note: These analyses are well underway and Ward currently has enough data to write this paper.
